PROFILE

Information Technology student at the Kwame Nkrumah University of Science and Technology with practical interests in web development, networking, e-commerce and digital product development. I apply classroom learning to real ventures including mothercare retail, marketplace operations, local artisan sourcing and the CookTok application project.

EDUCATION

Diploma in Information Technology - KNUST (In Progress)

Relevant learning areas: HTML, CSS, JavaScript fundamentals, programming, computer networking, databases and information systems.

PROJECTS & VENTURES

Personal Portfolio Website - Responsive portfolio built with semantic HTML, modern CSS, JavaScript interactions, GitHub and GitHub Pages.

CookTok Application - Short-form cooking video application project using React and Node.js, with video uploads, feeds and creator analytics.

Prisvic Mothercare - Children and mothercare retail venture supporting in-store sales and online marketplace operations through Jumia Ghana.

Northern Ghana Artisan Sourcing - Product sourcing initiative focused on Bolga baskets, leather goods and calabash items for resale opportunities.

SKILLS

Technical	Business & Professional
HTML5, CSS3, JavaScript fundamentals	E-commerce operations and product listing
Responsive design, Flexbox and CSS Grid	Product sourcing and marketplace research
GitHub, GitHub Pages and basic deployment	Communication, problem solving and customer focus
Networking and IT support fundamentals	Digital entrepreneurship and project planning

CAREER INTERESTS

Junior web development, IT support, digital commerce, software project support and technology-enabled entrepreneurship.
